

# Dashboard overview page

"Eskimi DSP" dashboard is an at-a-glance view of all your campaigns and their main KPI's in the selected period of time. It provides the aggregated data from all campaigns that were running at the selected period of time. You can see you're spent, impressions, clicks, and conversions in the numeric form and in the graphic below.

## How to use it ?

Select the time period in the drop-down menu in the upright corner of your window and click *apply*.

You can see exact KPI's in the graphic just by putting your mouse on the bubble. And as well you can see more detailed graphs when scrolling below.

Below the graphic, you can see the list of all Active Campaigns and their KPI's in the selected period of time. By clicking on the name of the certain campaign you will be directed to its *Report page*.

Campaigns <span>Q search</span>										
ID	Campaign	Impressions	Reach	Clicks	CTR	Conv.	CPM	CPC	CPA	Spent
17206	<span>MBet Click to Web App Campaign</span>	0	0	31	0.00%	13	\$0.00	\$0.00	\$0.00	\$0.00

Rows per page 3 1-1 of 1

Down below the list of All Active Campaigns you will find relevant information and graphs about Best performing ads/ Worst performing ads, Platforms and Operating systems used, Delivery map by hour or by Weekday, etc.
