

# SpotX

SpotX is a **global video ad serving platform**. It provides digital media owners with software that allows them to monetize their content with video advertising across desktop, mobile and connected devices (CTV). So SpotX is **100% video exchange**.

SpotX consists of **35% of Desktop, 65% of Mobile** inventory. While when it comes to sites and apps the split is **90% vs. 10%** where sites are taking the lead.

SpotX is a great way to do programmatic advertising through video as the exchange has great **outcome driven opportunities**. Based on their internal data SpotX can deliver over **80% video completion rate** while cost per completion may seek **0.03\$**.

SpotX supports **in-stream** and **out-stream** video formats. Additionally, SpotX inventory consists of **VPAID** and **VAST** traffic which give the opportunity for advertisers to serve ads on both video players.

SpotX additionally has **CTV traffic** which may enable advertisers to reach users who are watching content on connected TV.

## Advertising Policies

SpotX is strict when it comes to advertising policies. It is not possible to advertise any sensitive advertising - alcohol, gambling, weed, tobacco and etc.

---

## Working Model

Currently, SpotX, only provides private auction buying. So for additional video advertising opportunities adops should contact SpotX representatives and request to setup a private deal. Contacts will be found under general contact list in the manual. SpotX is a direct exchange that Eskimi DSP has integrated.

---

## Value Proposition

**Video outcomes.** Based on their internal data SpotX can deliver great video outcomes - high completion rate, high viewability.

**KPIs.** SpotX can setup a PMP based on different KPIs - high CTR, different CPM and etc. SpotX is a partner with GroupM so they could help to reach GroupM video KPIs on IAS.

**CTV.** SpotX will help advertisers to open more CTV opportunities.
