Remote VAST URI

How to upload Video Remote VAST URI:

1. Log in to your DSP account > go to "***Creative Sets***" > and click "***Add creative set***".

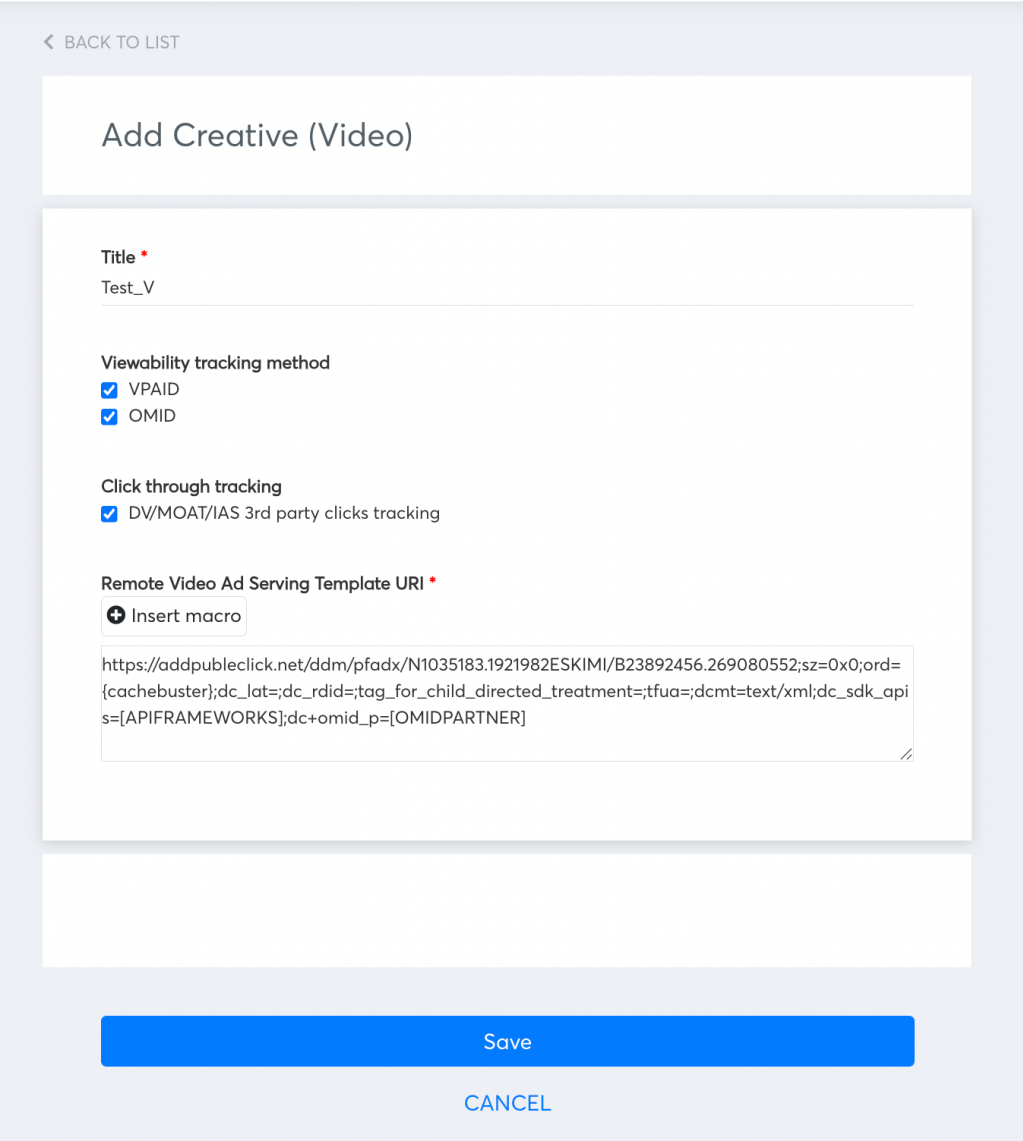

2. Give the Creative set a name > select the Creative Format "**Video**" > select the video format as "**Video Remote VAST URI**"

3.

Paste the creative tag in the box and hit save button (*Tick Tracking if there is any*):

*** **N/B:** *Viewability tracking method VPAID and OMID should be automatically selected. If not, make sure to select cause it will affect the viewability tracking in the reporting.*
