

Remote VAST URI

Step 1: Log in to your DSP account, go to **Creative Sets**, and click **Add creative set**.

Step 2: Select the type of your creative set as a video and name it as per the requirement.

A screenshot of the 'Add Creative Set' form. The form has a title 'Add Creative Set' and two required fields, each marked with a red asterisk. The first field is 'Title', with the placeholder text 'CREATIVE NAME' and a text input line. The second field is 'Creative format', with a dropdown menu showing 'Video' and a downward arrow. Below the form fields is a large blue button labeled 'Save' and a blue link labeled 'CANCEL'.

Step 3: Select the type of video from the Dropdown Menu

Add Creative(Video)
